

Calibration Equipment

Transforming the Way You Test !

To insure proper calibration of our fenestration test systems. ATS offers the equipment necessary to easily and quickly perform accurate calibrations.

Calibration Equipment Offered:

- *NIST traceable airflow plates 1.000", 1.500" and 2.000" (other sizes available upon request)*
- *Portable airflow calibration box (supplied with NIST traceable plates)*
- *Water spray calibration system*
- *Deflection calibration gages for ATS deflection system*
- *Digital manometer supplied with our portable test kit (standard)*
- *Missile speed verification system for measuring projectile speed for impact testing*

Other Products and Systems:

- *Air-Water-Structural System*
- *Test Wall System*
- *Digital Deflection Measurement System*
- *Water Recycling System*
- *Impact Cannon (large / small missile)*
- *Hurricane Cycling System*
- *Portable Test Kit (field, lab or line)*

DEFLECTION

calibration gages come standard with our deflection measurement equipment—9 transducers system shown

Water Spray Calibration

easily verify spray consistency and flow rate of water spray racks

PORTABLE AIRFLOW CALIBRATION KIT

includes 3 NIST traceable orifice plates and wheeled flight approved case

Our Mission Statement -

"To Deliver High Quality, Cost Effective, User-Friendly Automated Test Equipment with Integrity"
